Kumar Babu Kesam

Experienced Software Engineer with over 12+ years of expertise in enterprise-level application development,specializing in Java, Spring Boot, Microservices and AWS.

+91-7799220004 kkumarbabu07@gmail.com kumarbabukesam

Education

Bachelor of Technology (Computer Science and Engineering) Aug 2009 – April 2013

Work Experience

Asscoiate Consultant April 2026 – Present
TCS (Client: **US Bank)** *Bangalore, India*

- **Engineered and supported FedWire inbound and outbound payment processing workflows** in compliance with ISO 20022 standards, including **PACS.008 and PACS.004** message formats, ensuring reliable and standards-compliant payment processing.
- **Designed, developed, and deployed a new microservice for the OPS Console** to provide real-time queue-related information, leveraging **Criteria and Projection APIs** for efficient data retrieval and improved operational visibility and monitoring.
- **Developed a GraphQL capability service as the entry point to the microservice,** providing a unified and efficient interface for accessing queue-related information and enabling seamless integration with the OPS Console.
- **Leveraged AI-powered development tools,** including **GitHub Copilot and DevAssist,** to accelerate development, improve code quality, streamline problem-solving, and enhance overall engineering productivity while delivering tasks on schedule.
- **Upgraded microservices to Spring Boot 4** to address and mitigate identified **OSS security vulnerabilities,** ensuring improved security posture and alignment with the latest framework standards.

Senior System Analyst Mar 2021 – April 2026
IBM India Private Limited (Client: **DBS Bank)** *Bangalore, India*

- **Developed, and deployed various microservices on Pivotal Cloud Foundry (PCF) & AWS,** including Branch Connect**,** Unclaimed Deposits**,** and Semantic Search**.**
- **Migrated** 26+ microservices from **Java 8 to JDK 17** and **upgraded to Spring Boot 3.x.x** as part of a **modernization initiative.**
- Enhanced application **resilience and observability** by integrating structured logging, monitoring, and fault-tolerance mechanisms (retries, fallbacks).
- **Developed** the Rates Service with **real-time data processing by consuming Kafka topics,** enabling the handling of high-volume streaming data.
- Integrated **ENASS (Enterprise Name and Secret Store) for secure management of** sensitive configuration properties**,** replacing legacy Jasypt-based encryption**.**
- **Analysed** User Requirements (UR) **and translated them into** user stories **and** technical tasks **for the development team using** agile methodology**.**
- Automated **sitemap generation using Python 3.x** and deployed via **IBM Tivoli Workload Scheduler** for SEO optimization.
- **Integrated JaCoCo agent for real-time code and line coverage analysis** on running microservices in uat environments, enabling visibility into which parts of the codes are executed during actual service runtime (not just unit tests).
- Developed and deployed **Spring Batch** services to process Customer BranchConnect forms and route data to appropriate downstream subsystems.
- **Led the development, Developed and deployed scalable Java-based microservices on AWS using** AWS Lambda**,** Amazon EC2**,** Amazon S3**,** Amazon CloudFront**,** Amazon Elasticsearch Service**,** Amazon ECS**,** Amazon CloudWatch**, and** AWS Application Load Balancer**, ensuring high availability.**
- **Leveraged Claude Code and DevAI development agents** to accelerate software development.

Application Development Senior Analyst Oct 2018 – Mar 2021
Accenture Solutions Private Limited (Client: State Farm) *Bangalore, India*

- Spearheaded migration from monolithic to **Spring Boot microservice architecture**, improving scalability and maintainability.

- Designed and implemented **Config Server and Vault** integration for centralized configuration and secrets management.
- Built **CI/CD pipelines using Jenkins and Groovy**, enabling automated build and deployment workflows.
- Authored **JUnit, Mockito, and Karate BDD** test suites achieving >85% code coverage.
- Led offshore team of developers, conducted code reviews, and upheld best practices for code quality and performance.
- Deployed production-ready services using **IBM UrbanCode** and supported release processes.

Module Lead Aug 2018 – Oct 2018
Mindtree Limited. *Bangalore, India*

- Actively participated in **requirements gathering** discussions with stakeholders and prepared technical documentation.
- Created **proof-of-concept (POC)** solutions based on client requirements and delivered demos for validation and feedback.

Associate Lead Mar 2015 – Aug 2018
Enterprise System Solutions Private Limited. *Bhubaneswar, India*

- Resolved issues and implemented enhancements in the existing application to improve stability and performance.
- Contributed to the development of the next-generation product using the **ZK Framework**, focusing on modernizing the UI and improving user experience.
- Served as the **Build and Release Administrator**, responsible for configuring, maintaining, and optimizing **Jenkins pipelines** for end-to-end Continuous Integration. Oversaw build and deployment processes across **development, staging**.
- Served as the **Database Administrator**, responsible for maintaining DB Scripts (Table, indexes, procedures & triggers) for Oracle & SQL Server Databases.
- Mentored and guided junior team members, provided technical assistance, and conducted **code reviews** to maintain coding standards and improve overall code quality.

Java Programmer Oct 2013 – Mar 2015
Datapro Private Limited. *Visakhapatnam, India*

- Developed and implemented core business logic within the application's service layer, ensuring robust and efficient functionality.
- Designed and coded **Action classes**, **Form Beans**, and **Model classes** as part of the MVC architecture to handle user interactions and data flow.

Technical Skills

Languages	: Java, JavaScript, Python
Frameworks & Libraries	**:** Spring Boot, Spring Cloud, Microservices, JUnit, Mockito, Karate BDD, GraphQL, ReactJS (Learning)
Databases	**:** PostgreSQL, MySQL, SQL Server, Oracle
Cloud Platforms	**:** AWS (Certified Developer – Associate), Pivotal Cloud Foundry (PCF)
DevOps & Build Tools	**:** Jenkins, Maven, Gradle, GitLab, Bitbucket, IBM UrbanCode
Monitoring & Logging	**:** Splunk, Kibana, SonarQube, DataDog
Messaging Systems	**:** Apache Kafka, Queue
Schedulers & Orchestration	**:** IBM Tivoli Workload Scheduler (TWS)
Configuration & Security	**:** Spring Config Server, HashiCorp Vault, ENASS

Certifications

- Certified AWS Developer – Associate (19, July 2025- 19, July 2028)
  Credential ID, [571ea31f96a84a3f8b9af0008a222282] **Credly Certificate**

Awards and Achievements

🏆 **Received the ACE (Accenture Celebrates Excellence) Award** within just **6 months of joining**, in recognition of exceptional **technical contributions**, rapid **delivery impact**, and **proactive problem-solving** on critical client initiatives.
